

NEW FEATURES OF S. MT. FAIR ARE DISCUSSED

Plans for a handicraft division at the South Mountain Fair, September 6-10, and the possibility of holding a one-day children's pet show were among matters before the steering committee of the South Mountain Fair Association at a meeting Thursday evening at the fairgrounds.

The committee, for the first time, includes three women, Mrs. Martha Lower, Mrs. Walter Frederick and Mrs. Guy Herrington. Other members include: W. Clayton Jester, executive director, Arnold Orner, Harry McDannell, Robert C. Lott, Harry Stoner, O. C. Rice Jr., Henry Lower, Ryland Garretson and Harvey Raffensperger.

The group agreed to move the arts and crafts to a large building providing more space for its exhibits and room for a handicraft section. Members of the committee said a number of people in the county are "interested in making everything from hand painted cloth to chairs and clocks and they should have a place to display the articles they make."

Tanger's herd was selected, out of 37 herds under test in the association, to have made the greatest improvement in butterfat production during the year. Last year the approximately 21 cows in the Tanger herd averaged 285.5 pounds of butterfat. This year they averaged 357.2 pounds.

The honor of having the highest herd average went to J. Allen Spangler, Aspers, whose herd had come in second in production last year. The nine Holsteins in the Spangler herd this year produced an average of 13,001 pounds of milk and 476.2 pounds of butterfat.

Second high herd average was won by the 23 Guernseys and Holsteins in the herd of Ira L. Boyer, Hanover R. 3, which averaged 11,216 pounds of milk and 450.4 pounds of butterfat.

207 Girl Scouts Close Most Successful Camp Ever Held In County; Awards Are Issued

Girl Scouts this week made belts at the day camp conducted at the South Mountain Fairgrounds. Jennifer Hess is shown at left (close to camera). Next to her is Sally McCullough and then Frances Mickey. The next young lady is unidentified. Mrs. Elton Kessel, crafts instructor, is explaining the work aided by Mrs. Paul Snyder, Mrs. James Rowe (also standing) and Mrs. Donald Fair. The Girl Scouts on the right side of the table are, girl nearest camera, Ruth Zeigler, Mary Lee Adair, Margaret Ditchburn and Jane Roth.

Two hundred and seven Girl Scouts brought the annual South Mountain Fairgrounds Day Camp to a close this afternoon with a special program for their parents after the "biggest, best and most successful camp ever held," in the opinion of scout officials.

Last year the camp had what up to then was its record enrollment, 165 girls. This year's Camp not only broke all records, but the county Girl Scout Council had to "turn down" with "great regret," 25 girls who registered late, "because there just wasn't room for any more at the camp." Mrs. Hardy Nichols, secretary, said.

For the camp, which opened Monday, the scouts divided into seven units, three Brownie groups, a "fly up" group, two Intermediate and a Senior unit.

The program this afternoon opened with a flag ceremony followed by a program in which Brownie Unit A acted out a song, "The Deaf Woman's Courtship"; Brownie Unit B gave a song and dance number, "The Big White Clouds"; Brownie Unit C presented "The Shoemaker And His Wife"; the Flyups gave a pantomime of the camp leaders and camp life; Intermediate Unit A had a fire prevention skit as its offering; Intermediate Unit B sang a Czechoslovakian song, "Tancuj"; and the Senior Unit presented a pantomime.

During the week the scouts devoted much of their time to study for the wild plant badge award, presented at this afternoon's program. They learned to recognize 20 or more plants, learned to recognize a number of edible plants, made a terrarium from plant life found on hikes and about the fairgrounds, learned how to care for cut flowers and were shown both garden plants and the "relatives" of those plants in nature.

As part of their crafts program they made belts and other articles.

Mrs. Emory Raffensperger Jr. was director of the camp. Mrs. Robert Ditchburn and Mrs. Eugene Albright were nature instructors. Mrs. Carl Prosser and Mrs. George Ackerson, nurses; Mrs. Gordon Webster, Mrs. Romeo Capozzi, Mrs. Paul Snyder and Mrs. Elton Kessel, arts and crafts instructors, and Mrs. Robert Dearth, music instructor.

There were leaders and assistants for each unit.

President Dines At Farm Thursday; Returns Today

By MARVIN L. ARROWSMITH

EMERGENCY WHITE HOUSE, Operation Alert (P)—President Eisenhower travels back to the underground Pentagon today for a cleanup appraisal of the mock atomic attack on major U.S. cities.

He arranged to meet there with key aides to review the "damage" and "casualty" reports on Wednesday's theoretical assault, and to assess operation of the government's test evacuation to relocation centers.

After returning to his own hide-away base here, he ducked away for dinner with Mrs. Eisenhower and her mother Mrs. John S. Doud at the Gettysburg Farm. They had previously driven here for lunch with Eisenhower and then returned to Gettysburg. The chief executive returned during the evening. Presidential aides have insisted (Continued On Page 5)

23 AGENCIES TO FORM WELFARE COUNCIL HERE

Representatives of twenty-three county organizations and agencies met Thursday at the Veterans of Foreign Wars Post here to discuss the possibility of establishing a county-wide Community Welfare Council.

Nine other organizations, which could not have representatives present, sent notification of interest and plans to attend later sessions.

One purpose of the council, it was pointed out, will be to aid in coordinating services available for persons in need in the county. All of the agencies and organizations represented in one way or another carry on charitable work.

Cite Christmas Problem

Arthur J. Roth, who served as temporary chairman for the meeting, observed, "Such a council could have value if it only correlated the giving of food baskets at Christmas-time. Many organizations make gifts to needy persons at that time, and we have a condition in which some families now receive ten or 11 baskets, so much that sometimes there is more than the family can handle and thus some goes to waste, while other families, equally deserving, receive nothing. A county-wide council could serve as a center to help see that all receive some gifts, rather than a few."

Another purpose of the proposed organization was listed as "to evaluate and study our community for future projects."

A committee comprising Mrs. Henry T. Bream, Lawrence Cummins and Roland Kime reported on the findings it had secured by writing to eight other counties which already have established county-wide welfare councils. A committee comprising Mrs. Donald Myers, Miss Bettie Livermore and Mrs. Raymond Hill was named to draft bylaws to be presented at the next meeting.

Mrs. Elicker was a passenger in a car driven by her husband, Donald R. Dillsburg, when a truck on Route 74 allegedly failed to stop at a stop sign and spilled its cargo of pulp wood on the convertible in which the Elickers were riding.

The news of Vukovich's fatal crash on the speedway filled radio listeners with horror. They mourned a popular hero.

Several hours later came the news of 368 deaths in other fatal auto crashes on the highway. But the absence of drama in these accidents—and the anonymity of the victims—produced no comparable sense of loss to the nation as a whole.

Bill Vukovich took a calculated risk when he stepped into his high-speed car. He was an expert driver and he knew the odds.

You and I might say he was foolish to take such chances,

120-FT. STEEL SMOKESTACK SMASHES ROOF

Damage was estimated at \$5,000 Thursday afternoon when a crane with a 100-foot boom, lifting a 120-foot steel smokestack measuring six feet across, tipped and fell, smashing the roof of the elder building at the Duffy-Mott plant at Aspers.

Sherman Roe, Biglerville, operating a pay loader, assisting in bracing the huge smoke stack as the crane lifted it, suffered an ankle injury when the crane toppled, taking with it the smoke stack. X-rays were made this morning at the Warner Hospital to determine whether any bones were fractured. He was treated by Dr. Raymond Hale following the unusual accident.

B. W. Hughes, plant manager, said a former 90-foot steel smoke stack had been removed at the plant, and the new stack was put together on the ground. The crane owned by Joseph Novokovich, Harrisburg, had lifted one end of the pipe preparatory to swinging it around into position to place it on its base at the boiler room. As the crane swung, it overbalanced and the boom and stack came down across the roof of the 45-foot high concrete block elder building.

While the roof of the building will have to be replaced, there was no apparent damage to the stack, although there is a possibility of dents in the sections that could not be checked because they were across the roof, Hughes said. Nor was there apparent damage to the long boom of the crane. By using the crane, from a tipped position, the operator, who was uninjured when it toppled, was able to pull it upright this morning.

Housebroken Pig Sent To President

ROCHESTER, N. Y. (AP)—Pansy, a six-week-old pig, is going to a new home soon because her owner, 11-year-old Emmy Lou Murphy, decided the city was no place to raise a pig, especially a girl pig.
Emmy and her 16-year-old brother, George, sat down last week and wrote a man who owned a farm in Pennsylvania. Would he take the pig and raise her? She was housebroken and answered to her name. And she's a thoroughbred China Hampshire.

The man wrote back and said he'd be more than pleased to take Pansy, that he'd take good care of her and that he'd "try and remember to send you a photograph of Pansy when she grows up."

So today the pig is to be crated and sent to Dwight D. Eisenhower, Gettysburg, Pa.

The President added in his letter that he too was sure that Pansy would be happier growing up on a farm.

Miss Wentz, a daughter of Dr. and Mrs. A. R. Wentz, was graduated from Gettysburg high school this month.

The scholarship provides a grant of \$100 a year over a period of four years while the recipient attends an accredited college in the state. Miss Wentz's plans are indefinite.

Miss Wentz was associate editor of the "Cannon-Aid," and editor-in-chief of the high school handbook. She was a member of the National Honor society, the Quill and Scroll society and was active in dramatic work.

Longstreet Memorial Site Is Approved: Mrs. James Longstreet, widow of the Confederate general, said in Washington today the National Park service had approved a site along W. Confederate Ave. on the Gettysburg battlefield for an equestrian statue of her husband.

The site was selected by Mrs. Longstreet on a visit here last fall with members of the Longstreet Memorial association. Paul Maniship, sculptor for the monument to be erected and Eric Guggler, New York architect, accompanied Mrs. Longstreet here.

The site chosen is near the southern end of Confederate Ave. on the inside of the curve made by the avenue as it swings toward E. & Round Top. The site is to the south and on the opposite side of the highway from the Alabama memorial.

Today's Talk

EXPERIENCE
Anyone who has had a long life of experience is worth listening to, worth emulating and worth trying to as a friend. No one can have too much experience. The more you know the more life will be yours. We welcome readily to our group of friends that one who talks with voice of experience and common sense.

We are safe in the hands of one who has lived and learned much of life. We can trust him fully. He is not going to get us into trouble. Rather he is able to save us much trouble by relating the detours. There is no experience that doesn't carry lasting good for us. Experience is like a coat you wear—but good for life. It never wears out.

Upon leaving college I secured a job with an advertising agency. I did anything I was told to do—and many things I wasn't. I only wanted to grow and learn. One of my jobs was to sell type to newspapers which credited the agency with a commission. I wasn't happy over this work and told my employer. He looked me in the eye and said: "Adams, you can never know too much about type." He was right. That knowledge and experience have been two of the best investments I ever made. They have been like permanent bonds—with rich coupons!

One of the most valued of all my friends was the late R. H. Davis, known the world over as Bob Davis. My friend, Fred Mathias, once took a three-month trip to Mexico with Bob and then wrote and illustrated a book about it all which was entitled "The Amazing Bob Davis." He travelled everywhere and knew the great of this earth, but he was the kindest of friends and brilliant as a newspaper reporter and writer. He packed the experience of a dozen or more men. For half a lifetime he was Frank Munsey's editor and discovered and encouraged more writers than any man of his time. To know him was to gain from his rich experience and to love the man.

Tomorrow Mr. Adams will talk on the subject: "A God Within"

Just Folks

THRILL
The rougher the battle the broader the grin.

That follows the frown at the moment you win.
The harder the struggle that's testing your skill
When once you've achieved it the greater the thrill.

The harder the problem the greater the delight
When solving it proves that your judgment was right.
The more you are pressed when you've entered a race
To win will make wider the smile on your face.

The task that is easy the many can do.
But the pride of the master's reserved for the few.
So keep this in mind when you're troubled, my boy:
The harder the triumph, the greater the joy.

pounds of milk and 612.1 pounds of butterfat.

The "price squeeze" on dairy herd operators showed up this year in the reports of an association's work. The farmers culled their herds more quickly than ever, disposing of 103 animals for low production, they produced more milk with a higher butterfat content than ever—and they made less money than last year.

Test 1,400 Cows

While there were 1,400 cows tested by the association during the year, 271 were disposed of during 1954-55 association year, and 260 were in 12 herds that were not included in the averages because they were not in the association for the entire year.

The results listed show that the average of 869.22 cows tested produced an average of 9,280 pounds of milk per cow, the highest in association records since 1928; they averaged 353.7 pounds of butterfat, again the highest ever recorded, and the value of the milk and butterfat per cow was listed at \$436.80, a decline from the \$448.24 received last year for an average of 8,862 pounds of milk and 340.7 pounds of butterfat received per cow.

At the same time the cost of roughage, including pasture, crept up from \$94.85 to \$104.73 per cow. Grain costs upped from \$108.05 to \$110.81. Thus where it cost \$202.90 to feed the average cow in 1954, it cost \$215.54 to feed the same animal in 1955.

Award Certificates, Ribbons

The DHIA records show that the value of the product above feed cost was \$245.38 in 1954, but had dropped to \$221.26 in 1955. County Agent Frank S. Zettie said the records showed "some farmers lost money on some cows, even though they were what would be considered good producers, and many dairy farmers were lucky to break even."

Certificates and ribbons were awarded to 30 herd owners. First place ribbons for those whose herds averaged 400 pounds of butterfat per cow went to J. Allen Spangler, Aspers; Ira L. Boyer, Hanover R. 3; Earl Noel, McSherrystown; Chester Loper, Abbottstown R. 1; Lester Jacobs, Hanover; Earl Brandon and Son, Gettysburg R. 2, and Ray Haines, Westminster R. 2. Ribbons for production from 350 to 400 pounds butterfat per cow went to

"King Of Hearts" To Open On Monday

SHELDON BERMAN

"King of Hearts," a comedy about the antics of a famous comic strip artist, will begin a two-week run at Allenberry Playhouse, Boiling Springs, on Monday.

Written by Jean Kerr and Eleanor Brooke, the comedy will introduce two new members of the Allenberry company in its leading roles. They are Sheldon Berman who plays the wacky cartoonist and Marcie Hubert who acts his secretary and bride-to-be. Walter Massey in the role of the artist's assistant completes the triangle of the comedy plot.

"King of Hearts" completed a two-year stand on Broadway earlier this year. At Allenberry it will be directed by Richard North Gage.

Old Timers Star As Yanks, Chisox Win And Murry Dickson Whittles Down Braves; Cubs Clip Giants

By ED WILKS

Some of the old pappy guys got together and really showed the crewcut class in major league baseball a few tricks of the trade yesterday.

There were Murry Dickson, 38, Virgil Trucks, 36, and Tommy Byrne, 35, to name a few.

Byrne stopped the youthful Detroit Tigers 3-0 on four hits for the New York Yankees.

5th Straight For Trucks
Trucks kept the Chicago White Sox within two games of the league-leading Yankees with his second straight shutout and fifth straight victory, a six-hit job that beat Baltimore 8-0.

And Dickson, who has led or tied for the most games lost in the National League for the past three seasons, squared his mark at 4-4 by whittling down the Milwaukee Braves on four hits as Philadelphia won 3-0.

At the same time, Warren Hacker, a young sprat of 30, cut off a Chicago Cub losing streak at three games by stopping the New York Giants 2-0 on five hits. That pulled the Bruins to within 10½ games of National League-leading Brooklyn as Cincinnati topped the Dodgers a second straight time, 6-5 in 10 innings.

Tribe Tops Senators
St. Louis made it two straight by beating Pittsburgh 5-0.

The other American League games wound up with Cleveland holding off Washington 8-5 and Boston overhauling Kansas City in the ninth 7-6.

Byrne, a sometimes erratic southpaw, gave just one earned run, walked five and fanned nine. But he didn't get his fourth victory until the Yankees caught up with Detroit rookie Frank Lary for three runs in the ninth. Yogi Berra's one-on-one homer tied it and Elston Howard's pinch single scored the clincher.

Trucks, who has won seven, breezed in as Baltimore suffered its 11th shutout of the season and fourth in five games. Loser Duane Pillette and Joe Coleman gave up 15 hits—three each by George Kell, who drove in four runs, Nellie Fox and Walt Dropo.

Dickson Has Double
The Braves didn't get a man as far as second base against Dickson. The little right-hander walked just two and doubled to score the Phils' second run off loser Bob Buhl.

Brooklyn's 15th defeat came on Ted Kluszewski's two-out homer—his second of the game—off reliever Jim Hughes, who had retired 14 in a row. Big Klu is now tied with Dodger Duke Snider for the majors' homer lead at 20. Buster Freeman won it in relief after Brooklyn tied it with two in the seventh.

Washington had 12 hits, but Cleveland smacked 15 as Bob Lemon won his ninth with Mike Garcia's help in the ninth. Three runs in the fourth chased loser Chuck Stobbs and wrapped it up for the Tribe, still a game shy off he White Sox.

Williams' Average Rises
Boston won its eighth in nine games on Billy Kaus' two-run homer in the ninth. It came off reliever Johnny Sain. Ted Williams, still spry at 36, homered and singled twice while upping his average to .415.

The Cards' Harvey Haddix threw a four-hitter, fanned nine and walked two Al Schoendienst and Bill Sarni backed him up with homers.

Hacker had all he needed when the Cubs scored a pair off young Ramon Montant in the third. Frankie Baumholtz followed a walk with a triple and rode in on Randy Jackson's single.

The G. L. Bream Yankees pulled further ahead in the Little League standings by edging the Moose 2-0 behind the two-hit shutout pitching of Hardy Nichols, on the Little League field, Thursday evening.

Greg Maitland and Nichols tangled in another of the fine exhibitions of good Little League pitching.

Nichols' only bad inning and the Moose's only scoring chance came in the bottom of the third. Don Coldsmith collected a hit to lead off. Bill Little went down swinging, but Darrel Tuckey drew the only free pass of Nichols to place runners on first and second. A passed ball allowed the runners to move up one base. Becker then bounced to the pitcher who was quick enough to cut Coldsmith down at the plate on a close play. The next man also grounded out to the pitcher to end the inning. Only one other runner was to reach base in the next three innings and that was Jack Sprecher in the sixth on an infield error. Sprecher previously collected the only other Moose hit.

Runs Unearned
Maitland gave up his first hit in the first frame when Wayne Fissel connected to right field. The Yanks scored their unearned runs in the second. Bill Swope took first via an infield miscue and went to third on a pair of passed balls. Marty Olson singled to center to drive in Swope with the first tally. A single by Claybaugh and another passed ball enabled Olson to come all the way home with the second run. Fissel was the only man to get another hit off fast-ball pitcher Maitland. His safety came in the sixth.

Nichols struck out six men to capture his third win against one setback. Maitland who also walked only one man, struck out seven batters to bring his season total of strikeouts to 51. Maitland's loss makes his record two wins and two losses. Wayne Fissel was the only batter to get a pair of hits.

Coming from behind to score two runs in the bottom of the seventh inning, the Moose edged the Elks 7-6 in a well played softball game on the Recreation field Thursday evening. The Moose held first place with five wins and one loss while the Elks dropped into fifth place with a 2-3 record.

A walk to Brennan, Sherman's sacrifice, and a ground out placing the lead off runner on third, started a disastrous seventh inning for the Elks who were leading 6-5 at the time. Baumgardner walked and Brennan tallied from third to tie the game on the high pitch. Baumgardner went to second on the loss. Sam Staley then blasted a single which brought in the winning run.

The Elks scored an unearned run in the top of the first to take a quick lead. Leech walked and on two errors went to third. Cole then flied out to right giving Leech time to come in with the first score.

The Moose pulled ahead in the bottom of the second by tallying four runs. Singles by Sherman, Baumgardner and Ridinger, passes to Bud Knox and Tawney, and a sacrifice fly to center by Doug Knox figured in the scoring.

Lead See-Saws
The Elks came right back and pushed over three runs in the third to knot the count at 4-4. Leech walked, went to third on Cole's single and tallied on an infield miscue. "Reds" Saunders then pounded out his third home run of the year. The Moose broke the tie with one run in the fourth on a walk by Ridinger, single by Decker and an infield error.

In this nip and tuck affair the Elks scored twice in the fifth to take a 6-5 lead. Bill Knox singled and a fielder's choice, in which an error was committed, placed runners on first and second. Paul Howard lashed out a clean triple to right to drive home the two runners home.

Decker, Baumgardner and Staley were the big guns for the Moose as they each collected a pair of safeties. Cole belted out the same number of hits for the loser. Both pitchers turned in a fine performance with Tawney coming out with the win while Conover is charged with the loss.

JOSEPH KEEPS THE PASSOVER

II Chronicles 35:1-6, 16-19

Key Verse: I was glad when they said to me, "Let us go to the house of the Lord." Psalm 122:1.

King Josiah was in the eighteenth year of his reign and only 26 years old when he undertook his third great project. In last week's lesson he was shown successfully destroying all the "high places" or centers of idolatry, and then repairing the ruins of Solomon's temple. The climax of the latter project was the finding of the Book of the Law which was likely hidden during the persecutions of Manasseh.

He had covenanted with God before the people to keep this sacred law and he proceeded to do so in the same spirit and with the same determination as formerly. He announced a great national passover celebration in the temple. His approach to the task is worthy

of note and is one by which every devout Christian could profit spiritually. First, as the account reads, "he turned to the Lord with all his heart and with all his soul and with all his might, according to all the law of Moses." This was the secret of his strength and influence — he sought the Lord. If, when we worship in our sanctuaries, we would arrive early, bow our heads in silent prayer, and meditate on spiritual matters till the service begins we would find ourselves better prepared to participate fully and to receive the blessing and inspiration of divine worship, "God is in his holy temple. Let us keep silence before him."

The next step Josiah took was to consult God's word for guidance. He took the sacred book and patterned the passover exactly according to Mosaic law. He was thorough and meticulous to the last little detail, for he honestly believed

that this was Judah's last opportunity to prove herself a worthy nation under God. Through this act of worship Judah might yet redeem herself and avoid utter ruin and captivity! As he considered all plans for preparation, his hopes for the reclaiming of his ailing nation rose.

This passover was unprecedented in the history of Israel. Hezekiah's festival of a century before could not compare with it. In fact, it was the most elaborate passover since the days of the prophet Samuel. Josiah personally saw to it that the priests and Levites were properly instructed. They were told to return the ark to its usual place in the temple. The Levites who were lay people had several functions to perform: assist the priests at the altar, provide choirs for singing, and serve as doorkeepers.

Our worship services offer the same opportunities for lay members to participate. Singing in the choir, ushering, making the offering, assisting the pastor — all are customary services. But these cannot be performed properly unless careful attention and preparation has been made. Late hours on a

Saturday night do not contribute to a calm, devotional attitude. The mind and spirit of any worshipper in God's House must be attuned to the Holy Spirit Himself. Only when we open our minds to the Gospel message, the hymns, and the prayers, will we be spiritually refreshed and strengthened in our faith!

The chief trouble with King Josiah's national festival was that it was inspired by him rather than by the people. Yes, they participated but they did it more as a form. They were not as sensitive to the particular needs of the nation as the King.

This religious festival was Judah's last glorious act. Her courageous ruler still prayed that God would spare Israel again and not visit His judgment upon her. But Judah was not inwardly repentant; her moral fiber had been permanently impaired during the many years of idolatrous practices. And her people paid for their sins! However, God's prophets still held the glorious promise of return to their land after eventual captivity and a Messiah who would come to save. Unfortunately, about thirteen years later, the faithful king at-

tempted to fight the strong Egyptian army of Pharaoh-Necho and was mortally wounded at Megiddo — the famous battlefield which spelled Judah's downfall. From then on Judah became a vassal state. King Josiah's worst fears were realized, but his personal record was clean. He served God and his nation to the very end.

EVERYONE WELCOME

DADDY CAN FIX ANYTHING

The tremendous faith of a child in his father!

To the conscientious father it is frightening, indeed. And, to the conscientious mother, equally frightening is her child's trust in her.

It takes something more than love and good intentions to live up to the expectations of our children. We need a strength and wisdom and tenderness that do not come automatically with the responsibility of parenthood.

God provides, and the Church instills in our lives, the spiritual gifts which our parenthood requires. We were meant to cultivate these qualities, for with every challenge God offers us adequate resources.

And our children will grow as we grow in the Christian faith, for the most obvious truth in the world is that a child wants to be like his Mother and Dad.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

UNIFY SECRET STRATEGY FOR BIG 4 TALKS

NEW YORK (AP) — The Western Big Three foreign ministers gathered here Thursday to unify secret strategy for Big Four parleys with the Russians in San Francisco and Geneva.

The two-day get-together started on an optimistic note.

Antoine Pinay, French foreign minister, arriving at Idlewild airport, said "we can hope" for relaxation of international tension if the Atlantic community continues

as "a living reality."

Harold Macmillan, the British foreign minister, arriving at the airport less than an hour later, expressed hopes for "peace, security and freedom."

John Foster Dulles, secretary of state, came here from Washington on Wednesday with 25 staff members. The British and French foreign ministers each brought eight staff members from overseas.

Macmillan told reporters the summit meeting in Geneva might last four or five days — "long enough to make a start, but not a finish," he said. "That could take five weeks, or five months."

He said he hoped the Geneva meeting would give diplomacy a new phase in which negotiations would continue.

"In the words of Churchill 'Jaw-

Urges Fast Action On Medial Barriers

HARRISBURG (AP)—An Allegheny County Democrat today urged speedy House committee action on a bill he sponsored to require installation of medial barriers along the whole length of the Pennsylvania Turnpike.

Rep. Filo cited the death of four persons in a cross-over smash near Somerset Tuesday in pressing the Highways Committee for speedy action on his bill.

"Have you given my bill consideration?" Filo asked Chairman Petrosky (D—Westmoreland) on the floor of the House Wednesday.

Petrosky said that with the "great number of bills" before his committee, the group had not reached Filo's proposal.

The Filo bill would require the commission to install the type barrier it considers the best.

"Law is better than war-war," Macmillan said.

No agenda has been fixed for the Geneva meeting, Macmillan said, but he added he did not rule out Dulles' suggestion that the Big Four discuss freedom for Russia's East European satellite countries. "Everything is relevant," he said.

West German Chancellor Konrad Adenauer will join the Big Three at lunch today. He was in Boston today to receive a Harvard degree.

Need To Control Weeds For Good Corn Crop; Rain Helped Them Too, Zettle Points Out

By FRANK S. ZETTEL
Adams County Farm Agent

The heavy rains experienced in Adams County the last two weeks were welcomed and badly needed by farmers.

These rains not only helped the crops but weeds also responded to moisture. Under ordinary conditions farmers can get into their corn field when corn is just coming through the soil with a weeder or a spike-tooth harrow.

This usually does an effective job of controlling weeds. With all the rain this year weeds in corn are going to be a serious problem unless controlled.

Cultivation alone will not control most of the weeds in corn this year. It will pay most farmers to consider the use of chemical weed control.

Chemical weed control in corn has been used long enough by farmers to know that it is safe to use under most conditions if used properly.

Corn can be safely sprayed from the time it emerges till corn is a foot tall. However, it is better to spray when the weeds are small and before the corn is too large.

The material that is the safest to use is the amine form of 2,4-D. The amine form does not give off fumes which might drift over on susceptible plants while the ester form does. It must be kept in mind that if the actual spray material of the amine form or any other form drifts directly onto susceptible crops, injury will result.

The safest practice to follow when a susceptible crop is close by is to spray when the breeze is blowing away from the susceptible crop. The amine form of 2,4-D should be used at the rate of 1/2 pounds per acre. The amine form usually contains 4 pounds of actual 2,4-D per gallon; thus use one pint per acre.

Safe If Wisely Used

Before anyone starts spraying, they should calibrate the sprayer to be used. It is necessary and important to know how much the sprayer is putting on so the proper amount of 2,4-D can be added. The sprayer should be calibrated to apply between five to ten gallons of material at 30 pounds pressure.

If higher pressures are used there is greater chance of drift. In most cases it is necessary to get smaller nozzles than those used for spittle bug spraying. Most machinery dealers can furnish the proper type nozzles.

Weed spraying is practical and safe if used wisely. These are a few things to keep in mind if you expect results. Have the sprayer calibrated so the proper amounts of 2,4-D can be applied. Spray when weeds are small and delay cultivating for one

week after weed killer is applied. If spraying near susceptible crops, spray when wind is blowing away from the susceptible crop. Do not use 2,4-D in a sprayer that will be used to spray fruit, tomatoes, or vegetables. A weed sprayer can be satisfactorily cleaned out for spraying legumes with the use of household ammonia. If you are interested in more information on the control of weeds in other crops, contact our office and ask for "Circular 440," Chemical Weed Control in Farm Crops, Pastures, and Brush."

LEADER BACKS OUSTER MOVE

HARRISBURG (AP)—Gov. Leader today backed up House Speaker Andrews on a threat of caucus expulsion for House Democrats who vote against the administration's classified income tax.

"I think he (Andrews) has sufficient stature in the government and party that he has every right to do what he did," Leader told his weekly news conference.

Andrews, in a television appearance Tuesday night, said any of his Democratic colleagues who vote against the \$11 million dollar

income levy should be read out of the party caucus.

But his threat failed to daunt outspoken Democratic opponents such as Reps. Verona and Anderson, Allegheny Democrats.

In another news conference development, the governor said a Senate-amended plan to increase the weight limit of commonly used trucks in Pennsylvania from 45,000 to 60,000 pounds is "getting closer to the type of bill that I would likely be able to sign."

Kiddies Get Break In Lake Fishing

WESTFIELD, N. J. (AP)—Local cops should have no trouble enforcing a "no fishing by adults" ordinance in Lake Mindowaskin. The lake is across the street from the police station.

The ordinance barring the oldersters from the lake was adopted when the city fathers discovered the small fry had been shouldered away from vantage points around the small body of water.

Thailand is about four-fifths the size of Texas and has a population of about 18 million.

ASK \$18 MILLION TO DEEPEN RIVER

WASHINGTON (AP)—Pennsylvania and New Jersey congressmen were prepared today to ask the House for an \$18½ million dollar appropriation to deepen the Delaware River between Philadelphia and Trenton, N.J.

The full project is slated to cost \$5 million but the congressmen, after failing to get a requested \$25 million from the appropriations committee, decided to reduce the amount to \$18½ million Wednesday.

Reps. Fenton (R—Pa.), Flood (D—Pa.) and Wolpert (R—N.J.) spoke for the project during general debate.

Flood asserted that the Budget Bureau's insistence on 18 million dollars from local interests to help finance the project was "a precedent-shattering demand." He said it could be extended to every flood control and navigation project in the nation.

Rep. Scott (R—Pa.) planned to join Flood today in introducing an amendment to the appropriations bill. Scott said it would be an uphill fight but added: "We intend to make a good hard fight."

PREDICT PEACH CROP IN PENNA. ABOVE AVERAGE

HARRISBURG — First estimates for 1955 Pennsylvania fruit crops, announced today by the State Department of Agriculture, show production of peaches, pears and sweet cherries will be slightly less than last year.

The all-important peach crop, as of June 1, is forecast at 2,320,000 bushels compared with 2,550,000 bushels harvested last year and the 10-year average of 2,189,000 bushels. Federal-State surveys revealed.

Pears are estimated at 175,000 bushels against 185,000 last year and the 1944-53 average of 225,000 bushels. Sweet cherries are forecast

at 1,000 tons compared with the revised estimate of 1,100 tons last year and the average of 1,140 tons.

Forecasts on apples and red sour cherries will be announced later. Prospects for both are "very promising," the department said.

Expect Heavy Demand
With peaches running above average in Pennsylvania, growers are expecting an unusually heavy demand this season. National output is estimated at 48,025,000 bushels, 22 per cent less than year and 30 per cent below the 1943-52 average. The short national crop is due mainly to a near failure of peaches in the Southern States because of heavy freeze damage, the department said. It was reported that prospective production in the south is too small to warrant a forecast.

A crop of 5,760,000 bushels of peaches is expected in the states of New York, New Jersey, Pennsylvania, Virginia, West Virginia, Delaware and Maryland. This is 17 per cent below last year and 12 per cent under average.

With few peaches available in the south this year, buyers for some weeks have been inquiring in Pennsylvania and surrounding states for supplies, department observers said.

Recent rains will greatly aid the Pennsylvania peach crop, the survey showed. Bloom was heavy this year and the crop set well in most areas. However, drop was heavier than usual due to cold weather just

Says Vermont Cows Very Independent

CONCORD, N.H. (AP)—Perley I. Fitts, New Hampshire agriculture commissioner, has accepted Vermont's challenge to participate in a milking contest at the Vermont State Dairy Festival at Rutland June 22. He was undaunted by the fact he would have to milk a Vermont cow.

"I'll just milk her as we would milk a New Hampshire cow," he said. "I understand some of the critters are inclined to be independent because they outnumber people in Vermont. They know they could win an election if given a chance to vote."

SOUTH MONTROSE, Pa. (AP)—An eight-day strike at the Bendix Aviation Corp. plant here has ended with union ratification of a new contract. The workers return to work Monday.

Lodge 93, AFL International Assn. of Machinists last night voted 388-59 to end the walkout. Terms of the new pact were not announced. The union represents about 580 production and maintenance workers at the plant.

prior to the bloom and the dry weather during May. Showers in late May were local and sizing to June 1 was good in some orchards and poor in others.

But just what chances did he take, as compared to those many so-called "pleasure" drivers take?

First, he was a fine driver. He had passed a rigorous examination of his skill and his physical condition before he was allowed on the track. His reflexes and coordination probably were far above average.

His car was tuned like a fine watch. Every mechanical part had been checked and rechecked. He would have changed tires twice had he finished the race.

The car was reinforced with roller bars. He wore a crash helmet and safety belt.

His fellow-drivers also were experts. They were all going one way. There was no cross traffic, no pedestrians, no narrow bridges, no turns, hills, no blind lights and countless other hazards met in almost every mile of ordinary roadway.

And a glancing crash into a retaining wall at 120 m.p.h. does not develop the lethal force that a head-on collision does of two cars traveling 60.

How many highway drivers know as well as Vukovich did the hazards they may encounter?

So when you drive your car on the Fourth of July, think of Vukovich—not as a fast driver, but as a man who knew what he was up against and took calculated risks. Make sure you know what you are up against on the highway—and drive accordingly.

"The United States has only six per cent of the world's population and less than 7 per cent of its land but produces and

consumes well over 33 per cent of the world's goods and services and turns out over nearly half of the products of its factories. The purchasing power of 160 million Americans is probably greater than that of all the 600 million people who live in Europe and Russia put together."

In London a divorce was granted to a man who explained his wife had packed his lunch with sandwiches made of mud; filled his thermos with broken glass; hit him with a poker; slammed the car door on his

ADENAUER ASKS U.S. TO PRODUCE RUSSIAN SLASH IN ARMS

CAMBRIDGE, Mass. (AP)—Chancellor Konrad Adenauer of West Germany asked the United States Thursday to produce Russia again for an agreement on controlled arms reduction.

"The fate of this world and of peace" rests in the hands of "the two great world powers, the United States and the Soviet Union," the 79-year-old German leader said in a speech delivered at Harvard University commencement exercises.

"Unless these two great powers agree on an important step in the direction of controlled disarmament," he said, "the present state of conflicts short of a major war will continue."

U. S. Should Take Initiative
President Eisenhower is scheduled to meet at Geneva July 18 with the Premiers of Russia, Britain and France. Adenauer has just concluded talks in Washington with Eisenhower, Secretary of State Dulles and others.

Adenauer said: "I would be especially gratified if the United States would take the initiative in this matter and

Large Warehouse Destroyed By Fire

PORT JERVIS, N.Y. (AP)—A \$150,000 fire destroyed a large warehouse in this city's business district Wednesday and the flames gutted two adjacent residences and damaged three small business buildings.

Firemen from New York, Pennsylvania and New Jersey fought the windswept blaze and brought it under control in two hours.

The warehouse contained clothing owned by the H. M. Knitting Mills and electrical equipment owned by the Techniflex Corp.

The business buildings housed a bar and grill, a barber shop and an electrician's shop.

discuss this question with Soviet Russia. The United States is the strongest nation on earth; Soviet Russia fears her and her only and this fear certainly influences Soviet policy to a considerable degree.

"By taking the initiative in this, the United States would carry forward the policy announced by President Eisenhower in his address in April 1953; that is, controlled disarmament and the use of some of the means thus saved for the benefit of underdeveloped nations."

Adenauer emphasized that conferences on the subject "have up to now achieved no real success."

MOCK MARTIAL LAW DECREED

EMERGENCY PRESS HEADQUARTERS, Operation Alert (AP)—President Eisenhower Thursday declared a mock state of martial law to mobilize "the authority and resources of the federal government" in coping with the massive problems of a nation theoretically ravaged by hydrogen and atomic bombs.

The President's action—following a late-into-the-night session with top officials—was announced by a spokesman who said it was Eisenhower's view such a step was necessary to the national interest until Congress, supposedly scattered by the mock attack, could reconvene and until normal channels of government action were re-established.

The theoretical martial law declaration was taken after the imagined damage from Wednesday's great sham attack on 61 major population and industrial centers had been assessed the spokesman said.

The President came out with his martial law declaration on the second day of Operation Alert 1955, the hydrogen age preparedness exercise which started Wednesday when enemy bombers supposedly rained death and ruin on the nation's capital and 60 other key cities.

ADVERTISE IN THE TIMES

TWO JAILED FOR JAIL FRAUDING

MEDIA, Pa. (AP)—Judge Henry G. Sweeney sent two men to jail Wednesday and suspended sentences on three others on charges of picking up drunks and vagrants and committing them to jail without proper hearings.

Nicholas Capasso, 49, former Chester constable, was sentenced to three months in jail and fined \$500 on charges of impersonating an officer.

Anthony V. Dellaquila, 40, Garden City, a Neith Providence Twp. constable, was sentenced to two years and fined \$250. He also was ordered to make restitution of \$29.60, representing four fees he received for committing drunks to jail.

Nicholas G. Sanbe, 51; George Lombardo, 32; and Michael Barbato, 35, all of Chester, received suspended sentences.

Four Properties Are Transferred

The following property transfers have been filed in the office of the register and recorder:

Cornelius S. Starner and wife, Huntingdon Twp., sold to Robert J. Shearer and wife, York Springs R. 2, for \$5,600, a property of approximately 109 acres in Huntingdon Twp.

Herbert H. Click and wife, Gettysburg, sold to his parents, Earl N. Click and wife, Westminster R. 2, for \$2,500, a half interest in a property on Breckenridge St.

SEES PRESSURE ON TRADE BILL

WASHINGTON (AP)—Sen. Byrd (D-Va.) said Thursday President Eisenhower "has got to stand up to the pressure" he predicted will be generated under the new foreign trade bill.

The Senate completed congressional action on the measure Wednesday by voice vote, sending it to the President for signature which will extend the reciprocal trade agreements law three years and give the President new powers to cut tariffs 5 per cent in each year.

Byrd said in an interview that amendments by the Senate to provide additional safeguards against cheap imports for domestic industry were in no sense crippling to the 21-year-old reciprocal trade program.

In every case, he emphasized, the President will retain the final say on tariffs.

Some critics have contended the senate amendments will expose the

Fuel Dispute Rages In Housing Authority

PHILADELPHIA (AP)—A spokesman said Thursday the Philadelphia Housing Authority intends to continue to press for conversion from coal to oil heating at three of its units, despite announcement by a Pennsylvania Republican congressman that coal will be retained.

Rep. Fenton said Wednesday in Washington that he had been told by Albert M. Cole, federal housing and home finance administrator that "after considerable study of all phases of this problem a decision has been reached to install new coal-fired equipment" in three units operated by the Philadelphia authority.

The authority spokesman said today this announcement came "as President to a lot of pressure from protectionists."

Byrd said it is true that the provisions impose more responsibility on the President. But he noted the White House had approved the amendments.

HOUSE PASSES FIRST LINK IN POWER PROJECT

By WILLIAM F. ARBOGAST

WASHINGTON (AP)—In a big victory for President Eisenhower, the House has voted its approval of a transmission link between the Dixon-Yates private power project and the Tennessee Valley Authority system.

A \$1,372,122,800 public works appropriation bill including the project passed by voice vote yesterday and was sent to the Senate.

Supporters said they expected little difficulty getting approval in the Senate, where a marathon debate was waged over the private power plan last year.

House Democrats who had hoped to kill the project tossed in the sponge after an initial setback. They lost by a standing 196-169 vote their fight to allow the TVA to start work on a generating plant at Fulton, Tenn. which would have provided the power which the Dixon-Yates private utilities group has contracted to furnish.

Will Build Plant

They made no effort, after that defeat, to carry on a planned battle to prohibit the TVA from spending 6 million dollars to build a transmission line from its system to the middle of the Mississippi River. The Dixon-Yates

group has contracted to build a power plant at West Memphis, Ark., and to deliver power to the TVA at a pickup connection in the middle of the river.

The fight centered around Republican claims that continued expansion of the TVA system would result in socialization of the nation's power facilities. Countering this, Democrats contended the Dixon-Yates contract was an initial step toward destroying the big TVA system.

It took the House considerably less time to decide the TVA issue than it did to determine how much money should be spent on projects of the Reclamation Bureau and the Army Corps of Engineers.

Committee is Rebuffed
Amid shouts of "log rolling" and "pork barrel," the House upset its Appropriations Committee's recommendations for funds to finance these projects.

Seldom has the committee been so solidly rebuffed.
The House added \$52,722,000 for river and harbor and flood control projects and \$33,654,558 to the committee's Reclamation Bureau allotments. It was obvious that members interested in various local projects had reached advance agreement to help each other.

As the bill went to the Senate, it appropriated \$58,000,000 to the Atomic Energy Commission, \$26,214,000 to the TVA, \$694,000 in cash and a \$6,000,000 continuing fund to the Southwestern Power Administration, \$1,160,000 to the Southeastern Power Administration, \$21,100,000 to the Bonneville

Sentence Youth, 17, For Killing Aunt

PITTSBURGH (AP)—A 17-year-old boy who admitted slaying his great aunt with a hammer was sentenced yesterday to an 8 to 20-year prison term on a second-degree murder charge.

William Wright, in admitting the slaying of Mrs. Evelyn Thomas, 68, here last Jan. 26, testified he killed her when he thought she was going to telephone his mother and "upset" her.

Wright said he came here from Grove City, Pa., where he was serving a term at a boys' correctional institution to discuss his troubles with Mrs. Thomas.

Pour thin white sauce over cooked drained egg noodles; sprinkle well with grated cheese and bake in a moderate or hot oven until heated through and browned. This dish makes good eating for lunch with crisp bacon and a salad.

Living, early receipts comprised scattered odd lots choice and prime 25-35 lb. spring lambs, \$24-30; top considered eligible to \$25; few head cull to choice \$2-15 lb. fleshy short slaughter ewes, \$3-6.

**"We all have
MONEY in the BANK!"**

More than 69,000,000 other Americans could join this chorus: People of all ages, from all walks of life, who are saving for the future — and like to save where other banking services are readily available, under the same roof... like to deal with their bankers, in whom they have confidence... like to have their money earn interest at minimum risk — without their having to make an investment. Why not deposit your savings dollars here at our bank?
